# SAFE SEARCH

## Course Overview:

This programme has been created to support education providers by training designated staff members in their conduct and processes for searching students and learners safely, effectively, and lawfully in line with UK legislation for prohibited items in an educational setting. The programme aims to create a positive culture of confidence in screening and searching learners for prohibited items.

## Key facts:

Course Name: Safe Search – Search training for schools, colleges, and universities.

Qualification: MEP Bespoke Programme

Awarding body – MEP Bespoke Programme

Location: MEP use subject specialists with teaching qualifications for safe search training events. These MEP trainers are deployable to service provision to suit the client location.

---

## Entry Requirements:

None.

Duration and Delivery Model:

5 hours of face-to-face contact time.

---

## What you will learn:

The following themes will be covered within the programme –

- UK legislation and guidance
- Organisation policy and procedure review and adherence
- Reducing risk of physical and emotional harm
- Weapons, drugs, and prohibited item awareness.
- Handheld metal detector uses and process for execution.
- Physical search methodology
- Effective communication and de-escalation techniques
- Ethical consideration and policy guidance
